

Fran Corrigan

Our clients tell us it feels different to work with the team at Ignite Performance? Why? We won't seem like "consultants" because that's not where we've come from - instead, we've all had careers deeply rooted in business with real life experience solving problems and delivering business growth.

Meet Fran:

With over 25 years' experience as a Performance Coach and HR Business Leader, Fran thrives on helping people and businesses achieve results.

Fran brings to the table a rich mix of academic qualification and extensive professional service to a broad range of business portfolios including Human Resources, IT, Supply Chain and Operations.

A successful business consultant who established her own business more than a decade ago, Fran has supported a diverse range of organisations such as Woolworths Supermarkets, Optus, Transport for NSW and O'Brien Glass to drive transformational change through organisational redesign, culture change, systems implementation and other large-scale projects.

A leader who thinks commercially and builds trust using superior communication skills, Fran thrives in environments that require high quality outcomes within tight deadlines.
